

Check list type classification Lift Table

Function

- Total raised height mm
- Lift stroke/Travel mm
- Closed height mm
- Platform length mm
- Platform width mm
- Integral power pack
- External power pack distance from tablem

Intensity

- Lift speed sec.
- Number of lifts per hour
- Hours worked per day
- Number of lifts per year
- Inc. in an auto system

Capacity

- Max load (SWL) KG
- Load evenly spread
- Concentrated load
- Shock loads
- Revolving and/or side surges
- Driving over with truck or lorries

Accuracy

- Limit switch upper-lower
- Is immediate stop needed
- Should the table remain in exactly the same position for a long time

Power

- 3-phase 400 V, 50 Hz
- 1-phase 230 V, 50 Hz
- 3-phase 230 V, 50 Hz
- Other
- All connections to block

Environment

- Outside installation
- Pit installation
- Damp
- Cold store
- Dust
- Heat
- Chemicals

Security

- Risk of explosions
- Slip protection
- Risk of tipping
- Risk of trapping
- Emergency controls
- People lifter
- Goods lift

Options

- Side barrier rails
- Gate
- Interlocking gates
- Please give us note where to install rails or gates
- Mobile Base Frame
- Pallet truck frame
- Rectangular turntable
- Circular turntable
- Roll-off guard
- Load flap
- Mechanical shotbolts
- Tilt
- Roller conveyor
- Photocell control
- Bellows
- Chain mesh curtains
